

What careers can my subject lead to?

Art and Design

Different art and design disciplines have their own unique skillset but whatever path you choose, you will develop your creativity, raise your critical awareness, improve your hand-eye co-ordination and learn to appreciate diversity.

Specific skills:

- Critical awareness and thinking;
- Personal expression and visual literacy;
- Ability to undertake research;
- Imaginative risk taking;
- Design skills which can be applied to creating design solutions for the creative industries including advertising, architecture, crafts design, product design, fashion design, games design, interior design, film and TV;
- Make adjustments and improve your work;
- Experiment with ideas, materials and technology;
- Planning and organization;
- Self-discipline;
- Promotes cultural understanding;
- Problem solving and resilience.
