

YEAR 13 SPANISH SEPTEMBER. Braintree Sixth Form

MFL intent

The intent of MFL is to give students the tools to enable them to become confident and accurate communicators in a foreign language. Students are prepared for real life situations, engage in problem solving and develop coping strategies and perseverance. By doing so, students develop their understanding of themselves, the world around them, and build their resilience. They are better equipped in their working, emotional and social life. Through studying languages, we increase student confidence in their own language through transferable language skills and nurturing pre-existing talents. We recap and build upon grammar and vocabulary through exploring language patterns across a variety of topics and themes, enabling them to express themselves confidently.

Students aspire to inter-cultural understanding, tolerance and respect for international cultures and history. Learning languages allows students to develop a curiosity about the world from a different perspective, through understanding foreign films, literature, the study of customs and festivals. We organise trips to Paris and Boulogne which help to develop the students' cultural capital and immerse them in using languages in real life situations. We teach specially designed lessons to celebrate European day of languages on the 26 September which celebrates the many languages spoken in our community and encourages them to take part in a bake-off competition. As part of Notley Aspire we invite selected students to watch a play in the Target language in the theatre to further inspire a love of languages.

Students are encouraged to study languages up to A level exams, which offers clear progression into a wide range of employment opportunities.

We are committed to providing a supportive and stimulating learning environment and the curriculum is designed to help students explore and grow by developing knowledge and tolerance of other cultures and by exploring language patterns to develop fluency and confidence in communicating in another language. We ensure that lessons are enjoyable for all, delivering a range of activities that are engaging, interactive and fun. Within the classroom, we endeavour to create real life and relevant situations whereby students can use their language skills to communicate and to equip them with the skills to communicate in real life. We have high expectations of all students, and we want them to be proud of their achievements and progress and to be recognised for their efforts and excellence.

MFL Implementation

Our schemes of learning build resilience by ensuring progress in the 4 skills which are productive, (writing and speaking) and receptive, (listening and reading.) We nurture talent through developing a broad range of productive skills including accurate and confident pronunciation with knowledge of phonics, conversation, translation, structuring essays and developing arguments and opinions. As students develop these skills, they will be able to communicate, explain and justify their own opinions in both written and spoken forms. In developing fluency, they will develop aspirations.

Literacy is encouraged through receptive skills including vocabulary learning, reading, translation, dictation and listening. Students develop learning strategies to read and listen for gist, aiding the deepening of their understanding. They are encouraged to be resilient to extract information and interpret meaning in a range of texts.

Students learn through sequencing in small steps leading to the students reading and writing with more complexity. Teachers model so that students can expand their language skills. Students learn complex structures using LOVEIT grids, grammar and tenses which enables them to communicate and write more independently. There is a strong focus on monitoring and assessment to ensure that all students are progressing as expected. In addition, meaningful feedforward tasks are set after each written assessment, and where needed, intervention and support are timely and impactful. We design our lessons to instill a love of learning languages and to ensure that all students are included in every lesson. Students are motivated by the range of activities across a series of lessons and language is practiced, reinforced, and reviewed in a circular way which is further embedded through home learning.

Languages are a gateway to discovering new customs and cultures. We stimulate students' curiosity by exploring customs, festivals, and traditions. Students also discover culture through films at all key stages and a whole school celebration of European day of languages helps promote a positive outlooking ethos.

The student's chosen question or statement should allow the student to access the full range of marks

Understanding:

Students will understand how to:

- Choose a topic that is relevant, has easy access to resources and can be developed.
- Formulate the title and the introduction
- Develop the content, right up to the conclusion
- Anticipate the questions that might be asked and prepare possible responses

Skills:

- Research methods: identify appropriate materials from a range of authentic sources
- Organise information: mind maps, categories, structured note taking etc
- Analytical skills
- How to structure the initial 2-minute presentation
- Communication strategies: rephrasing, circumlocution, adjusting the message, asking for clarification/repetition, repair strategies, such as self-correction.

Students respond to these questions spontaneously, sustain communication and take the lead to further develop the conversation.

- Pronunciation and intonation are good and as authentic sounding as possible.

Improve language learning skills and communication strategies to sustain communication and build fluency and confidence.
