

Drama Unit Overview Year 11

During lockdown Year 10 were set tasks that fed into the GCSE course. These covered both Component One, the devising/performing unit and Component Three, the written paper, exploring how to structure responses to questions in both sections, A and B. Students will complete a test in September to decipher missing knowledge on the set text and key terminology. As an intervention, these gaps in knowledge will then be developed within lessons through starter and recall activities throughout the first term. Knowledge for Component Three will be assessed again during their mock examination in December. Students will be advised to further prepare for this from the start of term.

On our return students will start work on the Component One exam, devising and performing. Initially this work will take place in a classroom where students will be working in groups to create their own performance, this will entail making decisions on plot, themes, style, characters, set, sound and lighting. Students will be working together to write a script for their performance before bringing it to life practically.
