News:

Students are being encouraged to adopt evidence-based study techniques. Research shows that techniques such as practice testing, spaced repetition, elaborative interrogation and interleaving are among the most effective ways to improve long-term learning and exam performance. Resources and guidance are available through tutors, subject teachers and the Library.

Year 12

Year 12 in-class assessments will begin next week. They provide an important opportunity for students to demonstrate their understanding of the topics covered so far and help teachers identify strengths and areas for further development. We encourage them to approach the assessments with confidence and a positivity.

Year 13

Students have been reviewing their assessment results with teachers and reflecting on their progress. As the academic year gathers momentum, we encourage all Year 13 students to maintain strong study habits, seek support where needed, and make the most of the guidance available to help them achieve their goals.
