Dear Parent/Carer

The schools Catering Manager has informed me that their supplier Bidfood has notified us that any item purchased from themselves currently has a high risk of contamination of mustard and peanuts.

Although our Catering Manager always takes lengthy measures regarding allergen control, this is out of our control as a school for the time being.

I would advise that until this issue is resolved by Bidfood that your son/daughter bring a pack lunch, as it is possible that any food item they serve currently is contaminated.

Kind Regards

Mrs Simpson
