My Journey

Student to Apprentice

MORGAN SINDALL
CONSTRUCTION

This is Lucie, who was recently a college student. Just like you.

In September 2019, Lucie joined Morgan Sindall as an Apprentice Site Manager after attending the University Technical College Norfolk (UTCN). She is now on rotation as part of her degree.

Lucie, on her work experience with Morgan Sindall:

"Being here really shows you what a job is like in the real world. Someone can talk to you about it, but you have no idea what you are interested in until you do it. I wanted to do construction, but it's actually shown me how much I'm interested in the structural aspects."

I feel like work experience helps you get a foot in the door with companies and gives you a better chance. Also, it's an opportunity to show the company what you are like and the passion you have. Because of doing work experience, I already have an apprenticeship lined up, which means I can focus on my A-levels, get the grades I need, and then transition to employment smoothly."

Helen Clements, Community Investment Advisor at Morgan Sindall:

"Lucie dedicated her time off from College to secure a rotational work experience placement between a contractor and a design agency to help her career, but the lack of variety and office-based work didn't suit her passion."

I worked closely with UTCN to get Lucie on board with Morgan Sindall, and she was able to spend 5 weeks with the company rotating around a variety of roles on a large-scale construction project in Lowestoft."

What is a Site Manager?

A Site Manager is required to supervise and direct operations within a building project. They ensure work is completed safely, on time, and within the allocated budget allowance.

Employer comment:

"It was through a mock interview that Lucie met Helen, and was introduced to the opportunity with Morgan Sindall. After completing her placement with us, we offered Lucie an apprenticeship before the end of her course, which allowed her to focus on her exams. Lucie believes that her peers should definitely consider work experience."

► Talented people are key to our success

A final word from Lucie...

"Work experience at Morgan Sindall has been great. Compared to other placements, I have a lot more variety. Different people are giving me time each week, and that commitment from them has been really important. My end goal is to go to where there have been natural disasters and help re-build communities. I'm in this for the long term and I want to make a difference."

BECOME A MORGAN SINDALL APPRENTICE

Talented people are key to our success...

DEGREE APPRENTICESHIPS

We're seeking talented, motivated and ambitious apprentices to join our East of England teams.

Morgan Sindall provides national design and construction services to private and public sectors across the UK. We currently have the following apprenticeship vacancies, with fantastic scope for progression:

Apprentice Site Manager

Full time/permanent
Region: East
Location(s):
Norwich, Ipswich, Cambridge

Help in ensuring the construction of the project proceeds efficiently. Supervise subcontract labour and coordinating the activities of trade on site.

Apprentice Quantity Surveyor

Full time/permanent
Region: East
Location(s):
Norwich, Ipswich, Cambridge

Assist with commercial management of a project, take off quantities from construction drawings, ensure payment applications are submitted and that all subcontract documents are approved by cut-off date. Assist in the various subcontract packages from enquiry through to final account.

You will be supported through your apprenticeship by our career mentors and experts in your field. We will provide care and support in helping you to achieve your degree, while you gain valuable experience.

If you become a member of our team, you will join our other trainees and apprentices on their exciting career journey with our platinum-award winning business.

*Required for all roles: Minimum, 3 A levels grade C or above, and 5 GCSEs grade A-C or minimum level 4 (including maths, or an equivalent qualification)

Become part of our award-winning Construction East team.
